

Dear FCC, I am writing to comment on the proposed Low Power FM station changes. In Alaska we have been fortunate to have a large family friendly station use fm repeaters to broadcast their national program to our local market. KLOVE has enriched our community in so many ways. I am raising five kids and this is about the only station where you can listen without fear of hearing inappropriate messages or language. PLEASE, PLEASE, PLEASE do NOT allow this new LPFM to take priority over such a wonderful station as KLOVE. They have also been instrumental in helping our school bring up a Christian band for a fundraiser. It also has no commercials to blast us with and positive messages and music 24/7. Thanks for your time...
